EDUCATION & ACADEMIC AWARDS

UNIVERSITY OF WESTERN AUSTRALIA **Perth, WA**

Bachelor of Engineering (Honours) – Major in Electrical & Electronics Engineering *2025 – current*

- Pivoted to a **Bachelor of Engineering –** with a special interest in Embedded systems & Computer engineering.
- Completed MATH1011 (Linear Algebra), MATH1012 (Calculus), PHYS1001 (Physics) & CITS2401 (Computer Analysis).
- Committee member of EEEWA (Electrical & Electronics Engineers of WA.)

Juris Doctor *2022 – 2024*

- **Direct Pathway to Juris Doctor** – awarded the direct entry into the Juris Doctor program at the University of Western Australia (awarded to only 100 students in WA in 2018).
- Pivoted to Electrical Engineering to follow my passion for low level design and data analytics, after gaining relevant experience as a compliance intern at Moodle.

Bachelor of Commerce, Majored in Finance *2019 – 2021*

- **Relevant Coursework:** Computational Thinking with Python, Financial Accounting, Corporate Financial Policy, Business Analysis and Valuation, Financial planning, Economics and Business Statistics.

PERTH MODERN SCHOOL **Perth, WA**

High School – Academic achievements *2014 – 2018*

- Graduated in 2018 with an **Australian Tertiary Admission Rank (ATAR) of 98.3**
  - **Merit** in **Economics, Mathematics, Physics & Chemistry** – students achieving course mark within top 1% of cohort and **Certificate of Distinction** winner – awarded to students who achieve 75%+ in 20+ units.
  - **Member of Perth Modern Sphinx Society** – awarded to students with all A grades each semester from Year 10-12
  - **Australian Mathematics Olympiad** – **high distinction** – awarded to the top 2% of participants.
  - **Year 11 & 12 International Mathematics Modelling Challenge** – **high distinction**. Awarded to the top 10 teams competing against solutions from a pool of 200+ teams from schools and universities around the world.

PROFESSIONAL EXPERIENCE

SAI ACADEMY **Perth, WA**

Private tutoring business *2019 – 2020, 2022 - Current*

- Co-founded a tutoring business catering to the specialist needs of **Perth Modern School** Year 11 & 12 students in Mathematics Specialist, Methods, Physics, Chemistry & Economics – delivering 2400+ hours of teaching to 500+ students and generating (as of Feb 2026.) $1M+ AUD of revenue.
- Responsible for management of the business, preparing invoices, communicating with parents, tracking fees, operation costs and organisation of materials and supplies.
- Created the online learning platform for students to access teaching material, worked solution & more online.

MOODLE PTY LTD – Compliance Intern **Perth, WA**

Intellectual Property & Trademark Strategy *Jun. 2023 – 2025*

- Advised internal and external stakeholders on IP policies, enhancing brand protection and compliance.
- Maintained/optimized Moodle's trademark register, collaborating with attorneys to identify gaps & drive strategic initiatives.
- Proactively supported Moodle's IP and trademark portfolio by swiftly addressing and resolving related support tickets.

Legal responsibilities

- Administered contracts, edited, updated and formatted legal documents within the Google Drive environment.
- Provided on-demand general legal support.

NORTH SHORE COACHING COLLEGE – Tutor & Administrator **Perth, WA**

Tutor for Year 6, 9, 10 & 11 *Feb. 2020 – 2022*

- Delivered weekly classes to 50+ students (across all subjects) in years 6, 9, 10 & 11 in mathematics, science (general), chemistry and physics.
- Interacted regularly with the parents & students to address concerns or doubts as well as provide personalised assistance.

PERSONAL PROJECTs

ARRYTHMIA CLASSIFIER

- Built a production ML system that reads raw 12-lead ECG signals and accurately classifies 5 serious cardiac conditions (0.932 macro AUC) with convolutional neural network deliberately deisgned around real physiological timeseries.
- Combined signal processing techniques with modern machine learning and delivered a end to end solution – the live model with interactive visual explanations can be found here: **https://arrhythmia-detection.vercel.app**

INTERESTS

- C++ and low level programming for performance-critical systems
- FPGA development and embedded systems design
- Machine learning
- Guitar (electrical and classical) – playing, improvising, transcribing, experimenting with techniques and self-studying music theory
- Golf – amateur / enthusiast.
